Report to the Board
October 2, 2004

Notes since Summer 2004

1. The demonstration of the Isoph web conferencing software at the summer meeting went well. See the article in the Fall **Tar Heel News**. The executive committee held a meeting last week using the software, and things went well there. However, there are complications with the software (each executive committee member spent about a half-hour in prep for the meeting) that may mean the likelihood of success with a virtual board meeting is fairly low. There will be a discussion of this at the Fall board meeting.
2. The AAUW NC MAL dues payment with PayPal was confirmed. A nominal fee (\$.24 on \$11) was charged to AAUW NC. If other branches get on the PayPal bandwagon, there may need to be a discussion of whether or not that is an acceptable way for branches to send money to the state.

Plans

1. I've got the best of intentions to get with Marty and use the "Communications" counterparts list to provide better support for the branches. Discussions with the branches could include
 - Tour of the state and national web sites (maybe using the web conferencing?)
 - Setting up branch web sites (most from last year have lapsed)
 - How to use Paypal to accept credit cards for dues payments.
2. Work with the Asheville branch to implement online registration for the 2005 Convention.
