Report to the Board

March 15, 2002

***Accomplishments since Fall, 2001***

1. The AAUW NC web site was revamped and relaunched. New features that have been included are
  - Contact information for every branch
  - Form to collect contact info from non-members.
  - Documents including bylaws and policies.
  - Convention information, including (thanks to the convention committee) online registration.
  - Three branches' web sites including full officer lists and calendars.

Branches report that they get membership inquiries that refer to the information seen on the web. See <http://rtpnet.org/aauwnc>

2. Practice “chats” familiarized state officers with the chat rooms provided at [www.aauw.org](http://www.aauw.org). The AAUW NC chat room has been established. See <http://rtpnet.org/aauwnc/00About/Technology/Chats.htm>
3. A list of Members-at-Large was requested from the Association. Six branches were given lists for their areas to contact the MALs about branch activities. MALs with e-mail were sent additional information, and 9 (10% with valid e-mail) have joined the AAUW NC e-mail list.
4. Provided tech consulting to NC Women United. They are borrowing web space from AAUW NC temporarily.

***Plans (by Summer Board meeting)***

1. Update the web site “look and feel”.
2. Prepare a more general policy on electronic communication (balancing privacy and visibility) for the board’s approval.
3. Provide some automation for the collection of Branch Officer Report forms and production of counterpart lists.
4. Provide a registry of tech camps from the web site
5. Discuss registration of [www.aauwnc.org](http://www.aauwnc.org) (budget impact of \$70 for two years).
6. Provide support for online satellite formation, if required.
7. Complete draft job description.
